# SPACE AND OPPORTUNITIES FOR THE ENVIRONMENTAL INDUSTRY

- **RECYCLING PARK** 7.6 km<sup>2</sup> (760 ha)
- **CLOSE TO THE PORT** and good connections in every direction
- **A SAFE DISTANCE** from environmentally sensitive sites
- **PLENTY** of available sites, the opportunity for large-scale storage of materials, and materials terminals
- **REGIONAL STAKEHOLDERS** form a strong basis for the cooperative development of the area
- **RENEWABLE ENERGY** production started in 2014, twelve 4.5 MW wind turbines by TuuliWatti

# PEITTOO 2025 VISION

## Meeting the challenges of the recycling and environmental industry

-  Manufacture of new products
-  Recycling operations
-  Joint collection and support services
-  Material and waste processing and storage, potential for test fields
-  Reserved area (material and waste processing)
-  Materials terminals, e.g. forestry biomass, waste plastics, SRF
-  Reserved area (waste processing and landfill, potential for solar farms)
-  Waste processing and landfill area
-  Renewable energy production – TuuliWatti wind turbines

- LEADING centre for the environmental industry
- TEST ENVIRONMENT for recovered materials
- MATERIALS TERMINALS e.g. for biomass and industrial by-products
- CLEAN energy production

# PEITTOO POTENTIAL 2025

## CLEAN ENERGY PRODUCTION

- Wind farm
- Solar farm
- Biofuels

## TEST ENVIRONMENT FOR RECOVERED MATERIALS

- Fertiliser production
- Ash processing
- Construction
- Landfill mining

## MATERIALS TERMINALS

- Forestry biomass
- C & D waste
- SRF imports
- Waste plastics
- Industrial by-products

TYPE-SPECIFIC MATERIALS TERMINALS

AND SERVICES

JOINT INFRASTRUCTURE
